LinkedIn: <https://www.linkedin.com/in/milan-donhowe-571341176/>

Skills:

- Procedural & Object Oriented Programming: C/C++/Python/Java
- Front-end Web Development Vue/React/Sass/JavaScript (ES6)
- Development Tools: git/gdb/valgrind/ssh/npm/make
- Strong Written & Verbal Communication Speech & Debate Team Member

I am a first year computer science student at Oregon State University with a broad range of experience with procedural and object-oriented programming, a strong understanding of basic linux command line usage and working knowledge of various development tools from git for source control to gdb & valgrind for debugging.

Experience:

September 2019 - March 2020

RESIstore, Oregon State (Dearborn Hall) - *Volunteer*

- I spend a few hours (10-12pm) Sunday mornings working at the cash register at a small scale electronics store (sells stuff like resistors, capacitors, arduinos, etc.).

Various Programming Projects - *Programmer*

- You can view my portfolio at the following link:
